Cut in Customs duty to curtail inflation

795. SHRI SYED AZEEZ PASHA: Will the Minister of FINANCE be pleased to state:

(a) whether it is a fact that Government have cut Customs duty on several items as a measure to bring down inflation;

(b) if so, the details thereof and the expected loss of revenue thereby;

(c) whether it is a fact that similar cuts in import duty of wheat and pulses earlier have not succeeded in bringing down inflation; and

(d) what impact the recent cut on Customs duty on several items has made on their domestic prices?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI S.S. PALANIMANICKAM): (a) Yes, Sir.

(b) Prior to this year's budget, Government has reduced import duty on a number of commodities like pulses, maize, wheat edible oils, metals capital goods cement etc. Details of such changes made in the duty rates are given in the Statement (See below). Revenue loss on account of these changes is estimated to be around Rs. 4900 crore in a full year.

(c) and (d) Commodity prices depend on many factors, like supply-demand position, domestic production, international prices of commodities. Duty free import of wheat and pulses to ameliorate the shortfall in domestic output relative to domestic demand had a limited impact on domestic prices because of firm international prices. There has, however, been a reduction in prices of sugar. As regards recent changes in import duties including those in January, 2007, these are expected to bring down the cost of manufactured goods.
